About us

A Saudi veterinary company for more than thirty years

Bin Zahaba for Veterinary Services was founded in Jeddah in 1991. Since then we have worked in the Saudi veterinary market: we select products from their manufacturers, register them with the Saudi Food and Drug Authority, then store and distribute them to veterinary pharmacies and distributors.

Our sales team is made up of veterinarians who visit customers in their own cities and follow each product on the shelf and in the field, so we know what the market needs and respond to it.

Through a network of veterinary pharmacies across all thirteen regions of the Kingdom, we serve farmers of camels, sheep and goats, cattle, poultry and horses.

Our companies

The Bin Zahaba group

Licensed entities operating under the Bin Zahaba name, each with its own activity and commercial registration.

Sale of veterinary medicines and equipment, feed additives, vitamins and minerals.

CR 1010201616 · Unified No. 7011636904

Retail for farmers

Bin Zahaba Veterinary Pharmacies

Two branches serving farmers directly, supervised by veterinarians.

Two branches

What we do

From the factory to the pharmacy shelf

01
Import
We import veterinary medicines and feed additives from approved manufacturers in Europe and Asia.

02
SFDA registration
We prepare and follow up registration files for veterinary products with the Saudi Food and Drug Authority.

03
Storage and distribution
A warehouse in Jeddah and distribution covering all thirteen regions of the Kingdom.

04
Veterinary field team
Sales representatives who are veterinarians visit pharmacies and distributors and follow every product.

05
Feed additives
Vitamins, minerals and water-soluble products, the form Saudi farmers prefer.

06
Veterinary pharmacies
Direct sales to farmers in our two branches, with veterinary advice.

Our history

More than thirty years in the Saudi market

We started in Jeddah and grew with farmers and veterinary pharmacies in every region.

1991
Founded in Jeddah
Bin Zahaba begins distributing veterinary medicines.

Growth
The whole Kingdom
We reach 13 regions and 39 cities through veterinary pharmacies and distributors.

Registration
More than 27 registered medicines
Veterinary products registered with the Saudi Food and Drug Authority.

Partnerships
Manufacturers from Europe and Asia
We have represented manufacturers from several countries and brought their products to the Saudi market.

Today
New partners
We import from Kela, Belgium, and we are looking for new manufacturing partners for products the market needs.

Vision and goals

Reliable veterinary medicine, within reach of every farmer

Our vision

To be the most trusted partner of livestock farmers and veterinary pharmacies in Saudi Arabia.

Our mission

To supply registered, high-quality veterinary medicines and feed additives, and deliver them on time to every region.

1. SFDA-registered products from approved manufacturers, with consistent quality.
2. Steady availability in every region of the Kingdom.
3. Bringing in new products that Saudi farmers need.
4. Supporting veterinary pharmacies with a veterinary team close to them.

Our partners

We work with approved manufacturers

Kela
Belgium

We import injectable veterinary medicines from Kela: procaine penicillin, penicillin with dihydrostreptomycin, tylosin, oxytetracycline, gentamicin, vitamin B complex and calcium.

A veterinary manufacturer looking for a partner in Saudi Arabia?

We handle SFDA registration, import and distribution of your products in the Kingdom.
